New Original Outdoor Cameras

The 3-in-1 solution to keep your outdoor spaces secure:

a **high-definition video camera**, a powerful **105 dB alarm siren** and a **smart LED spotlight** with adjustable brightness, all in a single device.

The camera's advanced optics capture **2K + HDR footage at 30 fps**, with a **130° field of view**, **16x zoom** and **infrared night vision**, allowing every detail to be recorded, day and night. Every movement is detected with great precision.

Thanks to **dual-band Wi-Fi technology (2.4 / 5 GHz)** and **MIMO technology**, with two integrated dual-band antennas it can manage multiple data streams simultaneously, ensuring a faster, more stable connection with smooth, uninterrupted video and no signal loss.

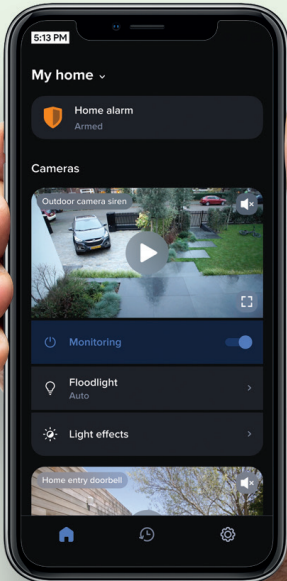

The built-in AI algorithm ensures extremely precise detection: **the camera accurately distinguishes people, pets and vehicles.**

Wi-Fi 2,4 / 5 GHz
2 x MIMO

Smart motion
detection: people,
pets and vehicles

The Smart Original Camera integrates seamlessly into the BTicino ecosystem via the **Home + Security app**, bringing together all your home security devices in one intuitive interface.

Using the app, you can watch live or recorded videos, view the event history and customise the detection zones in just a few steps.

Smart privacy by BTicino.

Intelligent detection and storage take place directly on the camera, not in the cloud. The data is transmitted only to your smartphone via an encrypted and secure connection. BTicino guarantees maximum privacy: **cloud access is enabled only with your authorisation.**

Reliable performance built to last.

Made from robust, weather-resistant materials (an aluminium frame and ultra-strong glass), the Original camera is designed to last for years.

Item Smart Original outdoor cameras

392050 Smart Original outdoor camera in white finish with advanced detection of people, pets and vehicles. A 3-in-1 device combining a high-definition camera, a 105 dB siren and a smart LED spotlight. Made from a sturdy, monobloc aluminium frame and ultra-durable glass and plastic materials (45% recycled) with UV protection, it guarantees reliability and durability even in extreme environments. Equipped with a 5 MP video sensor offering 2K resolution and H.264 encoding, it delivers smooth streaming and optimised storage. Long-range detection of up to 20 metres, a wide 130° field of view and 16x digital zoom ensure accurate and detailed monitoring. It features a microphone for real-time audio monitoring, a 12 W LED spotlight with adjustable brightness, and infrared night vision with a range of up to 15 metres, ensuring clear images even in low-light conditions. Data security is ensured by end-to-end encryption via the Home + Security app. Designed specifically for outdoor use, it is weatherproof and it is protected by HZO technology for increased reliability over time. Dual-band Wi-Fi connectivity, compatible with 2.4 GHz and 5 GHz networks, ensures a stable, high-performance connection.

Technical features of the outdoor cameras

Power supply	5 Volt with dedicated power supply or PoE connection
Network connection protocol	Wi-Fi standard 802.11 (2,4 GHz or 5 GHz)
Local data storage	8 GB SD card included
Video capture resolution	2K + HDR
Angle of vision	130 degrees
Night vision range	15 metres
Operating temperature	(-20°C)-(+45°C)
Zoom	16X
Indoor siren power	105 dB
LED spotlight output	12 Watt
Dimensions LxDxH:	50 x 110 x 200 mm
Weight	1085 g (Pack and contents)
Type of mounting	Wall mounted

Package content:

- 1 Outdoor Original camera
- 1 PoE / Plug – In power supply
- 1 mounting support and its screws
- 1 Allen key
- set of screws and 2 dowels for wall fixing
- 1 Micro-SD card
- 1 legal information
- 1 QSG card with Homekit code
